

Stubborn Fool Adventure Race 2019

Update #3

Hello racers! This update is a follow-up to Updates #1 and #2. If you have not yet read those updates, please review them carefully as that information is not repeated here.

Parking at HQ. Please park only in the area indicated below or as directed by the volunteers.

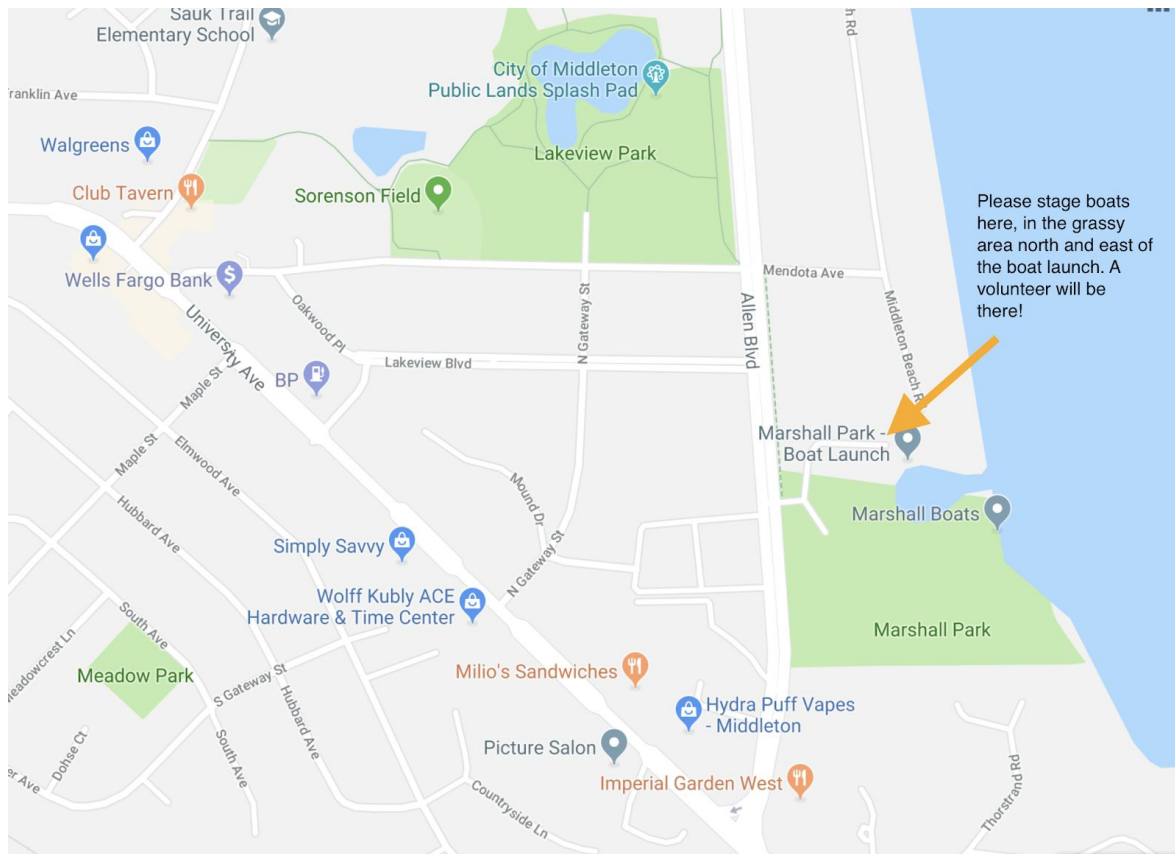

Label your equipment. Please be sure to label your equipment with your name!

Race Rules. The race rules are available [here](#). While there will be a hard-copy in your race instructions, it's a very good idea to carefully review them before race day to save yourself time on race morning.

All-punch wristbands. Teams of 2, 3, and 4: when putting on the all-punch wristband found in your racer packets, please make sure to leave enough room to slide two fingers under the wristband so there's room to punch the band with the orienteering punches.

Gear staging. Update #2 indicated there would be two gear drops, there is only one.

Paddle Gear Drop. Marshall Park, 2101 Allen Blvd, Middleton. This location opens at 8 a.m. There will be a volunteer to watch your gear until the paddle leg is complete. You may drop your boats, paddles, pfds, and a third seat if you have one. All gear should be staged prior to 9:15 a.m. No other gear should be staged at this location. Please drop your gear as indicated on the map on the follow page or as directed by the volunteers. Teams renting paddle gear: your rental equipment will be delivered to Marshall Park for you. If you would like to use your own paddles, pfds, or third seat, be sure to stage that equipment at the gear drop.

Please stage boats here, in the grassy area north and east of the boat launch. A volunteer will be there!
